

2008 Sustainable Living Fair Participant Application

Welcome and thank-you for your interest in participating in the Northern Arizona Sustainable Living Fair!

The Northern Arizona Sustainable Living Fair is a grassroots event focused on community education and fun, an outreach to people of all ages, interests and backgrounds. Renewable energy, sustainable development and thoughtful decision making are crucial for the future of life on earth as we know it. We want the Fair to be a resource for people to learn more about how to incorporate sustainability into their lifestyles and personal choices.

The Fair is an opportunity for you to share your knowledge, experience, products and services with people living in northern Arizona who are interested in a more sustainable lifestyle.

Exhibiting at the Fair is about sharing knowledge and ideas, developing skills and understanding technologies that will help us respect and conserve the Earth's finite resources. It is our intent that the awareness, understanding, and skills that are developed through participation at the fair will lead to our community to reducing the trend of resource depletion and increasing our activities related to replenishing, reusing, and recycling valuable resources.

We ask that as a sponsor, exhibitor or speaker you focus on educating and being a knowledgeable, collaborative resource for the Fair attendees. Our ultimate goal is to help foster a community in northern Arizona that will enjoy a productive and enjoyable lifestyle while using resources in an efficient and effective manner.

In order to effectively "walk our talk" we will strive to make this a carbon-neutral and zero-waste event!
