Living Association

## 2009 Northern AZ Sustainable Workshops Sponsorship

The Northern AZ Sustainable Living Workshops 2009 will allow attendees to "Roll up their sleeves" and "Dig Deeper" while learning to "Walk the Talk" and "Live the Change".

You are being asked to be a sponsor. Our organization is now in its third year of bringing a sustainable education event to our community. NAZSLA is a non-profit organization. Our board members are all volunteers. The funds we raise go directly into the costs of renting the facilities and equipment, and paying for advertising for the event. Our mission is to make this event attainable to all by lowering our costs to exhibitors and attendees. The fees we raise on the day of the event typically do not cover the costs to put on this much attended and desired grass roots event. The 2008 Fair had 16 sponsors, 59 exhibitors, 27 speakers, 100+ volunteers, 7 bands and over 2000 attendees -- all made our second year another resounding success!

**We are asking you to take part in this community event through a sponsorship.**

The 2009 Workshops will be in a facility with a large commons area for exhibitors, entertainment and food, and multiple smaller rooms and a patio for workshops. Our format will include a variety of hands-on, interactive 1-2 hour workshops and lectures with selected exhibitors that can reinforce the session topics with products and/or services information. We are working with several regional organizations to try to create follow-on opportunities for attendees to get field experience with the topics they've learned about.

### SPONSORSHIPS
