

## 2009 Northern Az Sustainable Living Workshops

### Workshop Leader Application

*Welcome and thank-you for your interest in participating in the Northern Arizona Sustainable Living Workshops!*

The Northern Arizona Sustainable Living Workshops is a grassroots event focused on community education and fun, an outreach to people of all ages, interests and backgrounds. Renewable energy, sustainable development and thoughtful decision making are crucial for the future of life on earth as we know it. This one day workshop event is a resource for people to learn more about how to incorporate sustainability into their lifestyles and personal choices.

*The Workshops are an opportunity for you to share your knowledge, experience, products and services with people living in northern Arizona who are interested in a more sustainable lifestyle.*

The Workshop event is about sharing knowledge and ideas, developing skills and understanding technologies that will help us respect and conserve the Earth's finite resources. It is our intent that the awareness, understanding, and skills that are developed through participation at this event will lead to our community to reducing the trend of resource depletion and increasing our activities related to replenishing, reusing, and recycling valuable resources.

We ask that as a sponsor, exhibitor or workshop teacher that you focus on educating and being a knowledgeable, collaborative resource for the workshop attendees. Our ultimate goal is to help foster a community in northern Arizona that will enjoy a productive and enjoyable lifestyle while using resources in an efficient and effective manner.

#### Workshops:

We're excited to be able to offer hands-on training for our attendees and want to hear your ideas for possible 1-2 hour workshops and suggestions for follow-on field experience opportunities. We will want many workshops to be put on twice during the day, once in the morning and once in the afternoon to facilitate attendees being able to participate in as many workshops as they want to. There will be no fee for putting on a workshop.

**The Workshop Tracks** (focus areas) for this year's event are:

- *Energy*
- *Building*
- *Water*
- *Transportation*
- *Gardening/Landscaping*
- *Consumer Choices/Finance*

If you are interested in leading a hands-on a workshop please fill out the following Information and submit application to [workshops@nazsla.org](mailto:workshops@nazsla.org).
